## PRESS RELEASE

---

### **Auditor General reviews Government contract for the removal of scrap metal**

Reporting on a lack of clarity in the Government's contracting practices, the Auditor General has identified opportunities for improvement in how officials carry out the process in her most recent report issued to the Legislative Assembly.

*"Recently, there have been some very positive developments that promote more effective procurement practices including the passage of new legislation and the creation of a central procurement office," said Sue Winspear, Auditor General. "This report identifies opportunities for better guidance to government officials involved in the acquisition of goods and services."*

The public interest report examined a contract for the removal of scrap metal from the landfill sites on Grand Cayman and Cayman Brac signed in 2013.

More information regarding this report can be obtained by contacting Martin Ruben at the Office of the Auditor General at (345) 244-3206. A copy of the report is available at [www.auditorgeneral.gov.ky](http://www.auditorgeneral.gov.ky).
